

The Meganisi Special

I was sailing with my friend on his yacht the Right Royal. At Atheni Bay on the island of Meganisi in the Ionian sea I found an olive tree pruning lying by the roadside whilst walking to a nearby bay. It fitted nicely in my hand-luggage.

The colour of this olive wood perfectly complements the gold and trivalent chromium fittings on my larger style ball point pen.

Here are some images from the olive grove to the workshop

A pen makes a great gift and my gift is that all my pens are made by hand with loving care using only the best quality materials and mechanisms that I can find.
